Art Unit: 3736

The following is an examiner's statement of reasons for allowance: the claimed invention:

A method in a computing environment for effecting a statistical assessment of mortality-predictive patterns in longitudinal timeseries data from individual persons admitted to hospital-based intensive care, the method comprising the steps of:

accessing mortality-predictive serial data received from a plurality of scores;

performing spectral analysis;

calculating a Lyapunov exponent, and

if the Lyapunov exponent is negative, outputting values for the exponent for at least one point in time in the timeseries so that the outcome for the individual person may be predicted.

Callaway et al. and Fulton each disclose aspects of the claimed invention however fail, along with the prior art to disclose, *"if the Lyapunov exponent is negative, outputting values for the exponent for at least one point in time in the timeseries so that the outcome for the individual person may be predicted."*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
